as is painfully evident from the reports of school shootings gang violence dysfunctional family life and from statistics on adolescent suicide many teens live troubled lives even those who live a normal life still face the challenges adults face but teens are also engaged in establishing independence and finding their identity however few adolescents have the same resources as adults for surviving life challenges building from the idea that story is a powerful source of meaning particularly those stories that resonate with our own lives this book suggests that the stories of other young adults offer a resource yet to be fully tapped adolescents in the search for meaning begins from the perspective of young adults by sharing the results of a survey of over 1400 teens and also includes the insights of authors of young adult literature the book presents over 120 novels that teens have identified as meaningful as well as books recommended

by ya authors and experts in the field of ya literature for any teacher librarian parent or counselor wanting to reach young adults this book is ideal

this book is about and for adolescence when the quest for self identity begins it is also written for professionals students and parents interested in understanding the developmental dynamics of adolescence towards self discovery during a delicately prescribed timeframe in non jargonized but in easy conversational reading style this book believes that to understand self identity we must look through the eyes of adolescence the authors present the biopsychological and sociocultural perspectives to gain insights into self identity by first understanding the self basic theories and principles based on many studies as to what why and how these perspectives influence shape and assist during adolescence are presented is the transition from childhood to adulthood truly so precarious full of stress and storm of adolescence

adolescence can be a turbulent period encompassing both classic and modern research smith explores its cultural and historical context the biological changes to the adolescent brain and the difficulties the search for identity relationship changes risk taking and anti social behaviours that adolescence brings

publisher description

this book provides descriptions of adolescence in eight regions of the world most people including scholars base their ideas about this age period on knowledge of american and european teenagers from japan to latin america this book shows that this particular stage of life is unique in different societies

adolescents in humanitarian crisis investigates the experiences of adolescents displaced by humanitarian crisis the world is currently seeing unprecedented levels of mass displacement and almost half of the world s 70 million displaced people are children and adolescents under the age of 18 displacement for adolescents comes with huge disruption to their education and employment prospects as well as increased risks of poor psychosocial outcomes and sexual and gender based violence for girls considering these intersectional vulnerabilities throughout this book explores the experiences of adolescents from refugee internally displaced persons and stateless communities in bangladesh ethiopia jordan lebanon palestine and rwanda drawing on innovative mixed methods research the book investigates adolescent capabilities including education health and nutrition freedom from violence and bodily integrity psychosocial wellbeing voice and agency and economic empowerment centring the diverse voices and experiences of young people and focusing on how policy and programming can be meaningfully improved this book will be a vital guide for humanitarian students and researchers and for practitioners seeking to build effective evidence based policy the open access version of this book available at taylorfrancis com books e 9781003167013 has been made available under a creative commons attribution non commercial no derivatives 4 0 license

adolescence is typically fraught with problems even under optimal conditions and when chronic illness is added to the picture medical and related social issues can complicate and even disrupt the course of development the first text geared toward the integrated care setting behavioral approaches to chronic disease in adolescence offers clinicians an evidence based guide to helping their young clients manage their chronic conditions and treating the psychosocial effects from school problems and stigma to noncompliance and depression that frequently follow diagnosis expert contributors present up to date information on epidemiology symptoms comorbid psychosocial problems and treatment options for a variety of common illnesses arranged to foster effective interventions for adolescents and efficient collaboration with other care providers in the team coverage is comprehensive authoritative and accessible ensuring best practice while respecting each client s individuality empirically based treatment guidelines for illnesses commonly found in youth including type 1 and 2 diabetes asthma cancer obesity and chronic pain overview of the physiology of adolescence particularly as it may be affected by medical conditions and of adolescent brain development latest findings on the role of families in teens adjustment to illness and treatment cultural considerations affecting ethnically diverse clients and their families detailed discussions of ethical issues relevant to treating chronically ill young people and of controversies involving pharmacotherapy with this population chapters contain useful handouts for clinicians and clients taking care of the practitioner chapter with helpful strategies for avoiding burnout its emphasis on specific practical information makes behavioral approaches to chronic disease in adolescence a go to reference for health psychologists child and adolescent mental health practitioners pediatricians and family practitioners and clinical social workers

this book presents an analysis of the impact of the social crisis on the well being of children and adolescents in europe focusing on the fields of health employment and social status this book highlights that the impact of crisis has to be viewed in light of the state policies in reaction to crisis chapters in the book offer new perspectives of a reflexive crisis research objectifying crisis and analyzing what is referred to as crisis by whom how for what purposes and with which implicit or explicit solutions this book offers empirical evidence and unique analytical approaches in the field of a child and adolescent oriented crisis research

this multidisciplinary handbook pulls together in one volume the research on children s and young adult literature which is currently scattered across three intersecting disciplines education english and library and information science

chapters address a wide range of issues confronting adolescents including depression substance use teenage pregnancy conflict with parents conduct disorder and stresses that affect young people the volume goes on to suggest ways in which these can be most competently dealt with contributors judith g smetana jacquelyne s eccles sarah e lord robert w roeser laurence steinberg jay belsky robert kegan catherine lord per f gjerde jack block ronald e dahl neal d ryan david a brent grace moritz margaret beale spencer davido dupree cynthia t garcia coll heido
